Award Winner!

Mirror Face

### **Available Now from Active Safety !**

- Finally! An “edge-lit” design glow-in-the-dark exit sign – only from Active Safety.
- The beauty of clear or mirrored acrylic with the advanced safety, value and sustainability of photoluminescent operation.
- Compliments the architecture of condos, hotels, offices, schools, retail, medical and other facilities conforming to IBC, NFPA and UFC codes. Listed to UL 924 standard.
- Perfect for LEED and “Green” projects. Contributes to LEED Credits EA1 or ID1.
- Low initial cost saves \$50 - \$100/sign at installation and \$20/year in ops/maintenance.
- Engineered for both high and low level exit sign applications.
- Easy to install and operate – just locate adjacent to fluorescent lighting. No wiring.
- Minimal maintenance – no lamps, batteries or radioactive tubes to replace or dispose of.
- Contact your local lighting rep. and visit [www.activesafety.com](http://www.activesafety.com) for more information.

---

*For over 15 years Active Safety has been a leader in photoluminescent exit signs and egress systems. Contact us to find out how your projects can benefit from this sustainable and economical technology.*
