Install Photoluminescent Exit Signs for EA1, MR4 & ID1 Points

Flex your
POWER 
Award Winner!

"Student Housing – LEED Silver"

"Resort Hotel – LEED Certified"

"Office Complex – LEED Silver"

SAFER! - Fail-safe Emergency Protection

- ★ Building Code compliant for both *high and low* level exit sign applications.
- ★ UL listed. US Military compliant.
- ★ Better than LED and Radioactive Tritium exit signs in Condos, Hotels, Offices, Schools, Retail, Hospitals, Labs, Military and Parking projects.

SUSTAINABLE! – Points in 3 LEED Credits

- ★ Energy/Atmosphere #1: Uses no electricity. Energy Star listed.
- ★ Materials & Resources #4: High percentage of recycled material.
- ★ Innovation in Design #1: No radioactivity or hazardous materials. Long life, low maintenance.
- ★ Rated "*Best Available Technology*" by United States Department of Energy.
- ★ Winner 2007 **Flex Your Power** Innovative Product Award.
- ★ Numerous LEED projects throughout the USA. Thousands of other installations.

LESS EXPENSIVE! – Architectural Grade & Design

- ★ **Generous Utility Rebates now available in many areas**
- ★ Compared to LED signs: save ~ \$100 - \$200+/sign at installation and ~\$20/year.
- ★ No electrical circuitry to engineer or install. Just locate near a fluorescent fixture.
- ★ 25+ year life. No lamps or batteries to replace. Minimal maintenance.
- ★ Modern "die-cast" designs come in several finish colors and mounting configurations.

For over 15 years Active Safety has been a leader in photo-luminescent exit signs and egress systems. Contact us to find out how your building projects can benefit from this sustainable and economical technology. Visit www.activesafety.com, call us at 800.657.6324 or check with your lighting representative.
